

**MARINE DEPARTMENT NOTICE NO. 47 OF 2010**

(Marine Works)

**Construction of a Groyne at the Golden Beach, Tuen Mun**

With immediate effect and for a period of approximately 6 months, construction of a groyne will be carried out within the area bounded by straight lines joining the following co-ordinates (WGS 84 Datum) and the adjacent shoreline:

(A)	22° 22.139'N	113° 59.359'E
(B)	22° 22.133'N	113° 59.310'E
(C)	22° 22.208'N	113° 59.269'E
(D)	22° 22.238'N	113° 59.328'E

2. The groyne is a breakwater structure built out from the beach and extended into the sea to prevent the loss of sand at the beach. The groyne, when built, will be appropriately 50 metres in length and 3 metres in width. Under different conditions of tide, the groyne will be awash at sea level or totally submerged under water.

3. The works will be carried out from one derrick lighter. One tug and one motor boat will assist in the works from time to time. Yellow marker buoys fitted with yellow flashing lights will be laid to mark the positions of the anchors extending from the derrick lighter.

4. The hours of work will be from 0800 to 1900 hours. No works will be carried out on Sundays and public holidays. Vessels engaged in the works will stay in the works area outside the hours of work.

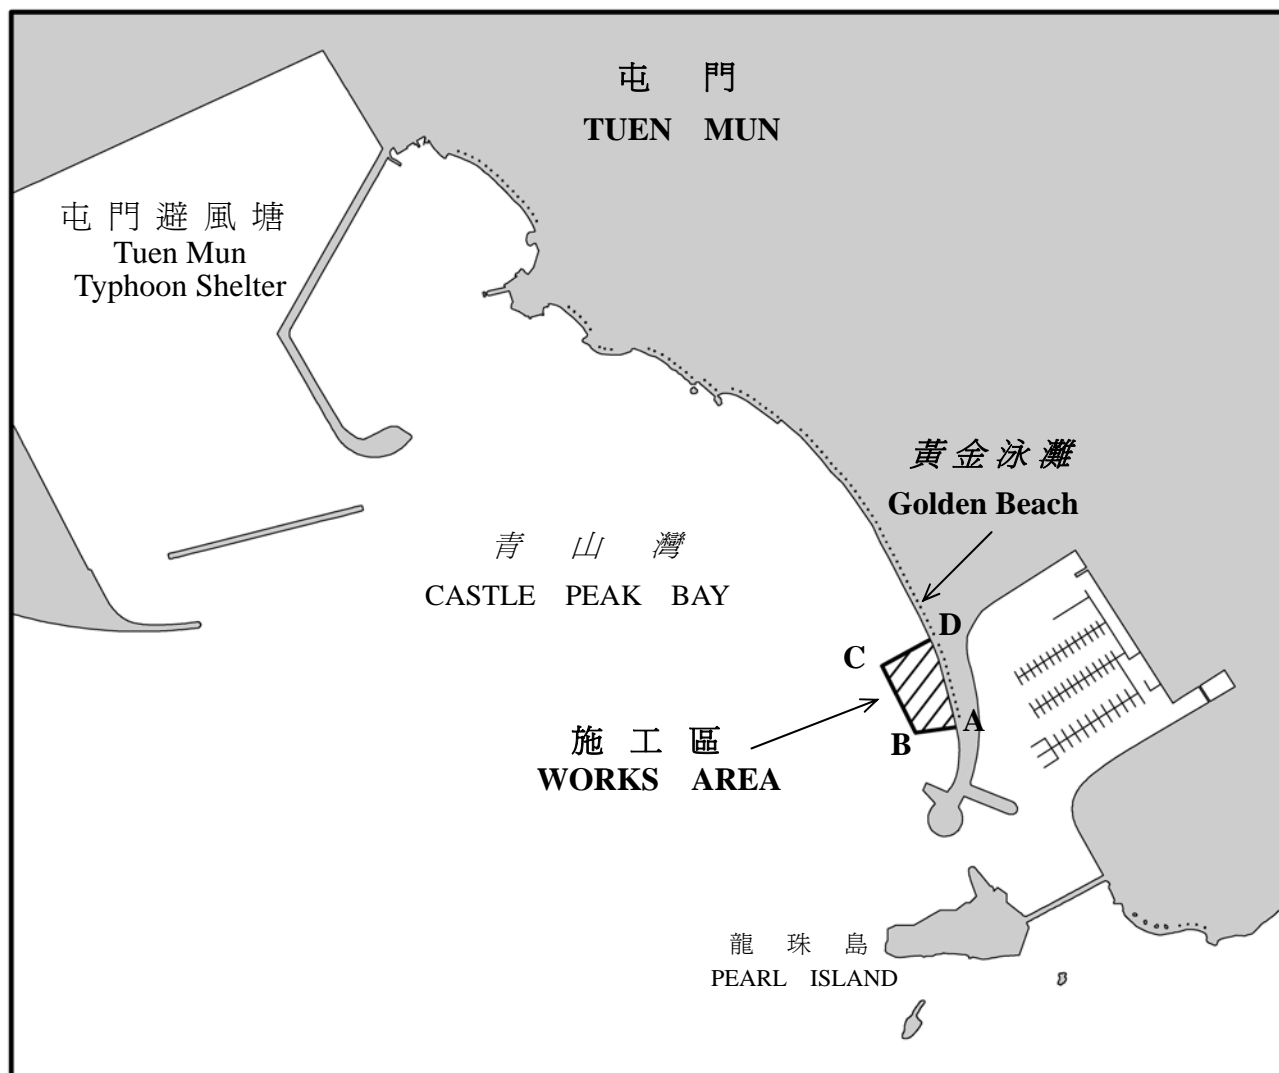

5. Diving operations will be carried out from time to time during the hours of work.

6. Vessels engaged in the works will display signals as prescribed in international and local regulations.
7. Vessels navigating in the vicinity should avoid entering the works area, bearing in mind there are divers working in the area and obstruction to navigation may exist.
8. After the groyne is built, yellow marker buoys fitted with retro-reflective tapes will be established to mark the seaward end of the groyne. Vessels navigating in the vicinity should proceed with caution and keep clear of the groyne.
9. A drawing showing the works area is attached to this Notice.
