

Check List for Tender Submission (According to Procurement Specification)

- 1. Chapter 2, Section 1.2(d) – Submission of Documents (*Mandatory Requirement*)**
To submit all required information as stipulated in the Standard Terms of Tender.
- 2. Chapter 4, Section 1.1 – Hull Design Features**
To submit a full list of existing in service vessels from which the hull design is developed/derived; and the name and correspondence address of the vessels' operators.
- 3. Chapter 4, Section 3.1 – Speed and Power**
To submit speed and power calculations for the Vessel in the full load and trial conditions with all margins. Any supporting data available from similar vessels in service or prior model tests shall also be submitted.
- 4. Chapter 4, Section 6.1 – Tow Hook**
To submit a tow hook catalogue.
- 5. Chapter 4, Section 10.2 – Painting**
To submit a painting scheme.
- 6. Chapter 4, Section 14.1 – Access, Doors, Ladders And Hatches**
To submit catalogues for proprietary make access, doors, ladders and hatches.
- 7. Chapter 4, Section 15.1 – Windows**
To submit catalogues for proprietary make windows and frames.
- 8. Chapter 4, Section 21.2 – Windlass**
To submit catalogues for proprietary make windlass.
- 9. Chapter 5, Section 1.6 – Main Propulsion Engines**
To submit engine speed / power performance curves and technical brochures showing details of the specification and design of main engines and gearboxes.
- 10. Chapter 5, Section 3.1 – Generator Set**
To submit technical brochures showing details of the generator set specification and design.
- 11. Chapter 5, Section 3.6 – Generator Set**
To submit electrical load analysis.
- 12. Chapter 5, Section 6.1 – Control and Instrumentation**
To submit the technical information and the layout of the remote control system.
- 13. Chapter 5, Section 10.1 – Engine Room Ventilation**
To submit a detailed calculation of the engine room mechanical ventilation.

14. Chapter 5, Section 11.1 – Air-Conditioning System

To submit a cooling load calculation of the whole air-conditioning system and the technical brochure showing the detail of the specification with the tender for evaluation.

15. Chapter 5, Section 19.1 – Engine Room Fire Detection System

To submit a technical brochure showing the details of the specification and design of the engine room fire detection system.

16. Chapter 5, Section 19.3 – Engine Room Fire Smothering System

To submit a technical brochure showing the details of the specification and design of the engine room fire smothering system.

17. Chapter 7, Section 1 – General Electronic Equipment Requirement

To submit a technical brochure of all the electronic equipment.

18. Chapter 7, Section 13 – Separate Spare Parts (Electronics)

To separately quote the spare units for replacement as listed in **Chapter 8, Section 8** and to submit a list of recommended spare parts (e.g. PCB, electronic and mechanical components) good for one year maintenance purposes.

19. Chapter 8, Section 4.2(a) – Spare And Replacement Parts (Other Than Electronics)

To quote separately the minimum spare parts including running spare parts, repair by replacement units, and service tools. Additional spare parts shall be quoted where necessary for MD consideration.

20. Chapter 8, Section 4.3(b) – ELECTRONIC SPARE PARTS / SPECIAL TOOLS / TESTING EQUIPMENT (Separately quoted)

Tenderers are requested to quote for a list of recommended spare parts and components with part number, special tools and test equipment with itemized prices for the major electronic equipment.

21. Chapter 8, Section 6 – Onboard Running Spare Parts

The following tables shall be filled in and submitted together with the tender.

- (a) Table (a) – Main Engine (1st proposed engine) Spare Parts (maker/model)
- (b) Table (b) – Main Engine (2nd proposed engine) Spare Parts (maker/model)
- (c) Table (c) – Diesel Generator Set Spare Parts
- (d) Table (d) – Electrical & Main Propulsion Control System spares

22. Chapter 8, Section 7 – Repair by Replacement Spares (Optional)

The Table for Repair by Replacement Spares shall be filled in and submitted with the tender.

23. Chapter 8, Section 8 – Electronic Spare Parts / Special Tools / Testing Equipment (Optional)

The Table for Electronic Spare Parts, Special Tools and Testing Equipment shall be filled in and submitted with the tender.

24. Appendix 1 – Warranty and Guarantee Slipping

Full details of the repairing /servicing shipyard facilities including establishment, repair equipment/ships, etc. are to be submitted with the tender.

25. The forms in the following parts are to be filled and submitted:

Appendix 1 The quote of Insurance Policy Premium for Warranty Period and Guarantee Slipping

Appendix 2 Table App 2.2 - Summary of Required Survey Man-days for Hull and E&M Equipment

Appendix 2 Table App 2.3 - Survey Visit Details and Expenses

Appendix 8 Machinery, Outfitting & Electronic Equipment

Appendix 9 Summary Quotation list for Optional Items Quoted Separately

Appendix 10 Commitment to Comply with Guideline Requirements

Appendix 11 Itemized Summary of Alternative Offer for Guideline Requirements.
