1 Section 12A “Reporting of notifiable diseases” of the regulation requires that if a seafarer employed on a seagoing ship is diagnosed with a notifiable disease, the employer must, on knowing of the diagnosis, require the master or, if the master is not available, the most senior officer available to complete, sign and forward to the Superintendent within 7 days after the employer knows of the diagnosis. This section does not apply to a high speed craft that navigates exclusively between Hong Kong and any other port in China.
