Explanatory Note

This Regulation amends the Merchant Shipping (Safety) (Cargo Ship Construction and Survey) (Ships Built On or After 1 September 1984) Regulations (Cap. 369 sub. leg. S).

2. The main purpose of the Regulation is to implement the requirements of Chapters II-1 and II-2 of the Annex to the International Convention for the Safety of Life at Sea signed in London on 1 November 1974, as revised or amended by the following resolutions adopted by the International Maritime Organization that are applicable to cargo ships constructed on or after 1 September 1984 and before 1 July 2002—
 - (a) Resolution MSC.31(63) adopted on 23 May 1994;
 - (b) Resolution 1 of the Conference of Contracting Governments to the International Convention for the Safety of Life at Sea, 1974 adopted on 29 November 1995 (SOLAS/CONF.3/46);
 - (c) Resolution MSC.47(66) adopted on 4 June 1996;
 - (d) Resolution MSC.57(67) adopted on 5 December 1996; and
 - (e) Resolution MSC.65(68) adopted on 4 June 1997.
3. The Regulation also imposes requirements on a ship using low-flashpoint fuel.
4. Besides, the Regulation amends the definition of *dangerous goods*. It also repeals an obsolete reference to a piece of repealed legislation and replaces it with a reference to the International Maritime Dangerous Goods Code.

5. Further, the Regulation creates offences for the newly added requirements and revises the penalty level for the existing offences to align with those applicable to passenger ships.
