

## **EXHIBIT II**

Referring to the Schedule of the Merchant Shipping (Prevention and Control of Pollution)(Specification of Substances)(Amendment) Order, where for HARMFUL SUBSTANCES, it states:-

**Harmful substances in package form, as defined in Annex III to MARPOL 73/78 as contained in the Consolidated Edition 2002, which:-**

- (a) are identified as severe marine pollutants with “PP” in column “MP” of the Index to the 2002 IMDG Code; or**
- (b) meet the criteria for severe marine pollutants as specified in paragraph 2.10.4.1.2 of the Code.**

The user of that Order can refer to the substances that are listed in the “Index” of IMDG Code. A summary list of the substances listed in IMDG Code is annexed to this Exhibit.

**Paragraph 2.10.4.1.2 of IMDG Code has identified such substances as having an extreme pollution potential, i.e. as severe marine pollutants (PP) if:-**

- bioaccumulated to a significant extent and known to produce a hazard to aquatic life or human health (hazard rating “+” in column A of the GESAMP hazard profiles) and are highly toxic to aquatic life, defined by LC<sub>50</sub> as less than 1 mg/l (hazard rating “4” in column B of the GESAMP hazard profiles); or**
- extremely toxic to aquatic life, defined by LC<sub>50</sub> as less than 0.01 mg/l (hazard rating “5” in column B of the GESAMP hazard profiles)**

**Note 1:**

**GESAMP/EHS Composite list of hazard Profiles is prepared by GESAMP, is circulated annually by IMO by means of BLG circulars.**

**Note 2:**

**LC<sub>50</sub> is the concentration of a substance which will, within the specified time (generally 96 hours), kill 50% of the exposed group of test organisms.**
